

UNIVERSITAS PANCASILA
PROFIL LULUSAN DAN CAPAIAN PEMBELAJARAN

UNIVERSITAS PANCASILA
PROFILE OF THE GRADUATE AND LEARNING OUTCOMES

Fakultas Program Studi Jenjang	: Teknik : Teknik Mesin : Sarjana (S-1)	Faculty Study Program Level	: Engineering : Mechanical Engineering : Undergraduate
I. PROFIL LULUSAN Lulusan Program Studi Teknik Mesin S-1 Universitas Pancasila memiliki profil lulusan antara lain sebagai berikut:		I. PROFILE OF THE GRADUATE The graduate of Mechanical Engineering Study Program, Universitas Pancasila has among others the following profiles:	
1. perekarya keteknikan bidang teknik mesin, 2. pemproduksi produk keteknikan bidang industri manufaktur, 3. konsultan bidang teknik mesin; 4. peneliti dan pengembang bidang teknik mesin, atau 5. wiraswasta bidang teknik mesin.		1. engineer in the field of mechanical engineering services, 2. production engineer in the field of manufacturing industry, 3. consultant in the field of mechanical engineering, 4. researcher and developer in the field of mechanical engineering, or 5. entrepreneur in the field of mechanical engineering.	
II. CAPAIAN PEMBELAJARAN		II. LEARNING OUTCOMES	
A. SIKAP Lulusan Program Studi Teknik Mesin S-1 Universitas Pancasila memiliki sikap sebagai berikut:		A. ATTITUDE The graduate of Mechanical Engineering Study Program, Universitas Pancasila has the following attitudes:	
1. bertakwa kepada Tuhan Yang Maha Esa dan mampu menunjukkan sikap religius; 2. menjunjung tinggi nilai kemanusiaan dalam menjalankan tugas berdasarkan agama, moral, dan etika; 3. berkontribusi dalam peningkatan mutu kehidupan bermasyarakat, berbangsa, bernegara, dan kemajuan peradaban berdasarkan Pancasila;		1. believe in One God Almighty and show religious attitude; 2. highly uphold the value of the humanities in carrying out his/her duties based on religion, moral, and ethics; 3. contribute to improving the quality of life of the society, the nation, the state, and the progress of civilization based on Pancasila;

4. berperan sebagai warga negara yang bangga dan cinta tanah air, memiliki nasionalisme serta rasa tanggungjawab pada negara dan bangsa; 5. menghargai keanekaragaman budaya, pandangan, agama, dan kepercayaan serta pendapat atau temuan orisinal orang lain; 6. bekerjasama dan memiliki kepekaan sosial serta kedulian terhadap masyarakat dan lingkungan; 7. taat hukum dan disiplin dalam kehidupan bermasyarakat dan bernegara; 8. menginternalisasi nilai, norma, dan etika akademik; 9. menunjukkan sikap bertanggung jawab atas pekerjaan di bidang keahliannya secara mandiri; dan 10. menginternalisasi semangat kemandirian, kejuangan, dan kewiraswastaan.	4. act as a proud, patriotic, and nationalistic citizen and be responsible to the state and nation; 5. respect diversity in cultures, views, religions, and beliefs as well as opinions or the original findings of others; 6. cooperate and have social sensitivity and social care for the society and the environment; 7. obey the law and be disciplined in social and state lives; 8. internalize academic values, norms, and ethics; 9. show responsibility in his/her area of expertise independently; and 10. internalize the spirit of independence, effort, and entrepreneurship.		

B. PENGUASAAN PENGETAHUAN

Lulusan Program Studi Teknik Mesin S-1 Universitas Pancasila memiliki penguasaan pengetahuan sebagai berikut:

1. menguasai secara mendalam konsep teoretis mengenai sains-rekayasa, prinsip rekayasa, sains terapan, dan matematika terapan yang diperlukan dalam perancangan dan penganalisisan sistem, proses, produk, dan komponen mesin;

B. KNOWLEDGE MASTERY

The graduate of Mechanical Engineering Study Program, Universitas Pancasila has the following knowledge masteries:

1. a complete mastery of the theoretical concepts of engineering science, engineering principles, applied science, and applied mathematics required for systems analysis and design, processes, products, or machinery components;

2. menguasai secara mendalam prinsip dan teknik perancangan sistem, proses, energi, komponen, dan pemilihan material; 3. menguasai secara mendalam prinsip dan teknik pemproduksian produk keteknikan; 4. menguasai secara mendalam prinsip rekayasa mesin untuk energi baru dan terbarukan; 5. menguasai prinsip dan isu kontemporer tentang ekonomi, sosial budaya, dan ekologi secara umum; dan 6. menguasai secara mendalam perkembangan Ilmu Pengetahuan dan Teknologi dalam bidang rekayasa.		2. a complete mastery of the principles and techniques of systems design, processes, energy, components and materials selection; 3. a complete mastery of principles and techniques of production engineering; 4. a complete mastery of mechanical engineering principles for new and renewable energy; 5. a general mastery of the principles and the contemporary issues in economy, social-culture, and ecology; and 6. a complete mastery of the development of science and technology in engineering.	
C. KETERAMPILAN UMUM Lulusan Program Studi Teknik Mesin S-1 Universitas Pancasila memiliki keterampilan umum sebagai berikut:		C. GENERAL SKILLS The graduate of Mechanical Engineering Study Program, Universitas Pancasila has the following general skills: 1. an ability to implement logical, critical, systematic, and innovative thinking in the context of developing or implementing science and technology by taking into account and implementing the values of the humanity according to his/her of expertise; 2. an ability to demonstrate independent, excellent, and measurable performance; 3. an ability to find the implications of the development or implementation of science
